SUBJECT : Attached Paper on Soviet Intentions and Purposes
at the Administrative Radio Conference, Geneva

25X1A9a

1. The attached "think piece" was prepared on a crash basis by Mr. [REDACTED] to assist the US delegation at the Administrative Radio Conference. Because of the importance of providing the best possible intelligence support to the US delegation at this conference, we would appreciate receiving, for consolidation and transmittal to Mr. [REDACTED] your frank comments on the attached paper. Of particular importance, I believe, would be pertinent data on the subject available here which might not have been accessible in Geneva, as well as conclusions we have reached which differ from those in the paper.
